HEALTH ON THE GO

The term PEMF means „pulsed electromagnetic fields“ and describes in modern medicine the specific application of unique pulsed, electromagnetic frequencies and intensities for the health benefit of human beings and animals.

Recent PEMF Discovery

Early clinical studies on electromagnetic fields were conducted in the 1960s in Russia and Japan. Beginning in 1973 the beneficial effects of time-varying low energy magnetic fields were documented with increasing frequency in North America. In 1982, working from Columbia University School of Medicine Dr. Andrew Bassett published a series of 4 articles on the positive effects of pulsating electromagnetic fields for non-healing bone fractures in 3 well-known North American medical journals. In the decades to follow there has been an explosion in scientific research pertaining to pulsating electromagnetic fields. Today there are many thousands of research articles in scientific journals worldwide. Magnetic field therapy is considered safe and effective for a wide variety of health conditions.

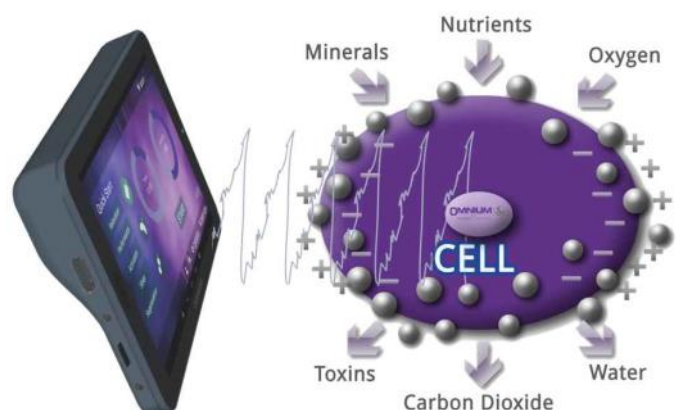

Not all magnetic fields are the same

The latest insights gathered through scientific and medical research show that not every type of magnetic field is effective in promoting optimal health in living organisms. It is now known that pulsating oscillations that mimic the vibrations of the Earth's own magnetic field can benefit every cell of our body, as long as they have the correct intensity, information content and resonance characteristics. How? By recharging our current conducting cell membranes through precisely regulated electro-magnetic fields. When all the body's cells are simultaneously stimulated with natural, resonant electro magnetic vibrations, cell vitality increases, metabolism is enhanced and total body energy is improved. This is the power of intelligent

Benefits of Pulsed Magnetic Field Therapy

- Blood oxygenation and Micro-Circulation
- Endorphin Release and Pain Relief
- Better Sleep and Stress Reduction
- Stronger Bones and Bones Healing
- More Energy ATP
- Improved Immunity
- Nerve and Tissue Regeneration
- Improved Metabolism and detoxification

Improve wellbeing with pulsating electromagnetic fields

Magnetic resonance stimulation offers a broad spectrum of benefits to human health with essentially no adverse reactions and very few contraindications (pregnancy, epilepsy, electronic implants).

Consistent home use is strongly correlated with increased energy balance resulting from the integrated whole-body stimulation of the immune metabolic, neurological, endocrine, circulatory and musculoskeletal systems. The result is increased energy and vitality, improved sleep, less stress, reduced pain and overall a greater enjoyment in life.

For Your Business Life:

- to maximize your mental clarity, focus and productivity
- for efficient 8 - 24 minute work breaks, providing essential renewal
- in the midst of your projects requiring heavy concentration
- for healthy on-the-job stress management

For Professional and Amateur Sports:

- for pre-competition warm-up
- to reduce or eliminate lost training days due to illness
- for rapid post-exercise recovery after strenuous workouts
- to support faster rehabilitation for injuries

For Seniors:

- to improve mobility
- to increase energy, vitality and strength
- to provide metabolic support for bed-bound people
- to optimize physical and psychological balance

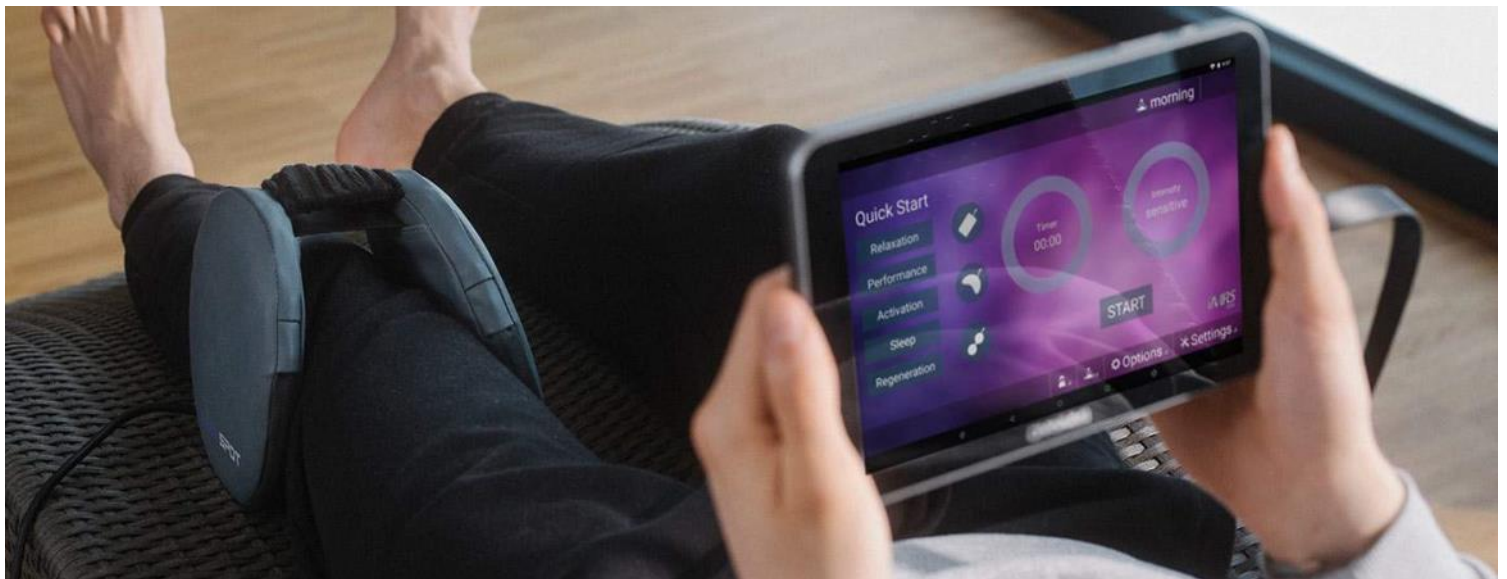

For Wellness and Anti-Aging:

- to improve circulation and immune system function
- to activate cellular metabolism and repair
- to aid relaxation and detoxification
- to provide optimal overall vitality

Developed, engineered and designed in Switzerland the Omnium1 is based on the worldwide known and established Android platform. It can be used as a regular tablet without any restrictions: Surfing the web via WIFI, sending, receiving emails and complete access to the android app structure. Android Oreo 8.1 is already preinstalled and serves as the user interface for all related applications.

In contrast to a regular market-based tablet the Omnium1 not only contains of a specific high performance battery (4 x 3.7V, 4 x 2600 mA/h), it is to date the world`s first tablet equipped with two connectivity ports (specific 20-pin connector). These accesses allow connectivity and control of a wide range of health, wellness and fitness related hard- and software applications (W@pp`s) in the nearest future. The Omnium1 is also the world`s first android based control unit which is capable of performing a 100% analog pulsed electro magnetic field application (PEMF) in conjunction with a brain wave entrainment session - evaluated and monitored by and with only ONE single control unit.

The Omnium1 is a modular system and different component can be upgraded anytime or separately, with excellent back compatibility and future proof. Prevention, active health, wellness and fitness management in the comfort of your home is no longer a vision. Due to its versatility and performance the Omnium1 provides comprehensive home health management in an easy, slick and cost effective way.

Key Features of *iMRS* 2.0 System one

Android Oreo 8.1

Android Oreo offers a stable, proven open-platform that allows easy upgrade for both the iMRSone system and application wirelessly.

Portability & Long-lasting Battery

The built-in rechargeable battery allows you to bring the system with you any where. Each full charge can last you up to 4 hours of continuous operation at maximum intensity

Natural Magnetic Field & Frequencies

Multi-frequencies between 0.5-64Hz, and intensity of 0.09—65 μ T offers one of the most natural beneficial range of frequencies and intensities for health

Auto-Polarity Switch

The magnetic field polarity reverse in a specific interval to minimize cellular fatigue and optimize stimulation effect.

Sawtooth Multi-frequencies Organ-Clock program (Full-body Mat)

iMRS legendary organ clock programs is the foundation of magnetic resonance stimulation.

Graduated Intensity (OmniMat)

The full-body mat is designed with graduated intensity, with lower intensity at the head section, and gradually increased downward to the body and lower section.

Special Protective Layers

All applicators come with specially hardened multi-layer material to provide extra support for the coils for better durability and reliability.

Key Features of *iMRS* 2.0 W@App-lication one

iMRSone W@app is an integrated application for controlling and monitoring of the system.

5 Quick Start Programs. Simple press of button and the system will automatically select the organ clock program, duration and intensity for you.

Automatic Alert of App Update

Over-the-air application update through wireless network

Hands Free Autostart - Select a program to start automatically on daily or one time basis. Excellent for hands-free operation

Touch screen - Simply Slide to choose timer (1-60 minutes) and intensity

OmniBrain App

All Omnium1 system comes with OmniBrain App. You can use OmniBrain headset separately with Omnium1 as standalone Brain-wave Entrainment system.

Unlimited User Profile

Set customized profile for use with OmniMat, OmniPad and OmniSpot for different users and applications.

Upload your own Music

You will never get bored with your own playlist—to use together with the OmniBrain App.

Millions of Colors combination

The new OmniBrain comes with customizable and adjustable RGB color, offering possibility for millions of color combination!

OMNIMAT

Recharge yourself with OmniMat Full-body Mat. Just 8 Minutes per session, twice a day can help keep your cellular in optimal condition. OmniMat comes standard with all Omnium1 bundles.

OMNIPAD

OmniPad comes standard with all Omnium1 bundles. Single-fold, 2 built in, non-insulated, solid copper coils, same amount of windings, square wave impulse, magnetic field strength max. 70 micro Tesla for a simple and effective local application.

OMNISPOT

2 single segments connected with a flexible belt. 2 built in, non-insulated, solid copper coils, same amount of windings, square wave impulse, magnetic field strength max. 120 micro Tesla, Helmholtz-effect (=homogenous magnetic field) due to the opposite arrangement of the coils during the application. Fixing belt for an easy and effective, punctual application.

OMNIBRAIN

OmniBrain is an audio-visual brain wave entrainment system that can be also simultaneously used together with the magnetic resonance stimulation application (PEMF) provided by the iMRS one. This supports and optimizes the desired wellness effect for both mind & body. The OmniBrain operation is integrated into the Omnium1 App with can use together or separately with the PEMF session.
